

SANTIAGO EMANUEL RENÉ BONETTO

Santa Fe Capital, Santa Fe, Argentina - 3425091381 - santirbe@gmail.com

Full-Stack web developer

I have knowledge in javascript/Typescript, react, redux, react libraries, style libraries, knowledge in back-end with express, postgresSQL, Node.js. I had the chance to work in collaborative environments focused on the e-commerce industry where I could learn agile methodologies (SCRUM) and develop soft skills such as leadership being tech lead of the group, assertive communication and focus on results. I feel that the best decision I made was to combine my knowledge in sales with programming, thus achieving a more complete technical development.
